## Bespoke Wrapped and Coloured Cabinet Service

*Our unique, secure cabinet wrapping service is ideal for YOUR ongoing confidential waste volumes!*

They are aesthetically pleasing and blend into the office environment with your other furniture! We can supply them in a wide range of colours and designs to suit your particular requirements!

These lockable units are a standard size of H: 900mm x L: 500mm x W: 500mm, and each come with suspended internal bag, which our collection team simply exchanges either on a schedule, or on your request when full. These cabinets allow confidential waste to be stored safely AND securely prior to collection but more importantly they restrict access to the confidential materials using a key lock system, which means the cabinets can only be opened by either a Highlander collection operative or nominated key holders of your company, ensuring that your redundant confidential documents don't EVER come back to bite you!
